

It's your future . . .

so prepare now for success! Just a few additional points on your ACT score can literally open doors and translate into thousands of scholarship dollars! Our former students (and their parents) will tell you, hands down - when it comes to academic success, an investment now can pay huge dividends down the road. A.E.L.C.'s comprehensive prep courses are designed to develop and reinforce skills you need to successfully take the American College Testing Entrance Examination (ACT).

Our students learn effective test-taking strategies for each section and question type on the ACT test, as well as the general test structure and scoring method of the test. These strategies, combined with an intensive review of math and verbal concepts, increase speed and accuracy and boost test scores.

These classes are taught by our seasoned team of instructors, and include diagnostic practice testing with actual past ACT examinations. Specific areas of study include Mathematics, English, Science Reasoning, and Reading.

When to take this course . . .

Best case scenario, we recommend that you take the ACT Prep course early, in your **sophomore** or **junior** year, and take the actual ACT exam several times, to attain your highest score in your final year. To that end, you can repeat any or all the prep courses, as many times as you want, for only a nominal re-enrollment fee. With your commitment and our resources, we can help boost your scores!

What parents are saying . . .

"My son raised more than his ACT score ... his confidence level shot straight up too!"

-- A.L., Catholic High School

"We sent our older son to the prep class, and he boosted his score significantly. We've already made plans for our daughter to attend the course next year!"

-- J.P., Central High School

"This was one of the best decisions I ever made for my sons scholastically, and for myself -- financially!"

-- S.K., Pulaski Academy

"My daughter's grades were exceptional, but her test scores were only slightly above average. This course helped her relax, work strategically, and perform at her optimum level!"

-- P.T., Mt. St. Mary's
